Office of Executive Programs and Public Policy

Arnise Moultrie, Program Administrator

Division of Field Operations

Marchar Stagg, Statistical & Research Analyst

Message from the Director

I am pleased to present this year's Annual Statistical Report. As an agency, we accomplished benchmarked results, utilizing Evidence-Based Practices supervision strategies and focusing on mission-driven priorities. This report depicts the Department's successes and areas of greater opportunity.

The Annual Statistical Report for Fiscal Year 2012 has been compiled for your review and reference. This report provides a statistical representation of the work of 590 employees of the South Carolina Department of Probation, Parole and Pardon Services (SCDPPPS) including 354 caseload carrying Agents. While there have been many challenges over the course of the year, I am pleased to report that 70% of our probationers and 91% of our parolees successfully completed supervision. The Bureau of Justice Statistics of the United States Department of Justice (2010) reported nationally that approximately 65% of probationers and 52% of parolees successfully met the conditions of their supervision.

This Department operates its offender programs within a clear framework of public safety in supervising the 46,374 offenders under our jurisdiction. We maintain a fundamental belief that given support, resources, and service interventions, the offender has the ability to make positive changes in his or her life.

In addition, our responses to offender risks and needs in the community are focused to address present or potential problems that may interfere with the successful completion of supervision without compromising public safety.

The following tables provide a description of the offender population and answer some commonly asked questions regarding the Department's programmatic efforts. Each table is preceded by a short description of its contents.

For additional information or clarification, please contact Arnise Moultrie in the Office of Executive Programs and Public Policy at 803-734-9220.

Sincerely,

Kela E. Thomas
Director

To the Reader

The reader should be aware that there are different ways of reporting units of data depending upon the purpose. Admissions include only those offenders admitted to SCDPPPS who had no other active cases at the time of admission. Closures information reflects only the last order to close during the fiscal year. The description of Actives represents only those offenders who had at least one active case on June 30, 2012.

Fiscal Year 2012 (FY 2012) began on July 1, 2011 and ended on June 30, 2012. At the end of FY 2012, there were 46,374 offenders under the legal jurisdiction of the Department. Legal jurisdiction includes offenders who were transferred out of state, absconded with active warrants, and others who are not under the active day-to-day supervision. At the end of the fiscal year, 32,671 offenders were under active supervision of the Department.

In addition, due to rounding, some of the totals will not equal 100%. Where possible, missing data or rounding has been indicated.

SECTION A

**TOTAL
POPULATION**

FISCAL YEAR 2012

TOTAL POPULATION

Tables 1-A through 6-A and Figures 1 and 2, represent admissions to the SCDPPPS during FY 2012. These tables count admissions to a particular sanction, and include only those offenders admitted to SCDPPPS who had no other active cases at the time of admission. These tables also include only the main case even though an offender may have been admitted with more than one case. In FY 2012, there were 17,662 admissions. A state and county total is provided for each category of admission. Within the racial categories, due to the small number of offenders classified as "Asian, Hispanic, Native American, or Other", they have been grouped together and classified as "Other".

Table 1-A provides information on total admissions by program type. The counties of Charleston, Greenville, Richland and Spartanburg contributed the largest number of total admissions, together accounting for 36% of all admissions.

Explanation of Program Types

Probation: Includes Probation, Probation Termination Upon Payment (PTUP), Split Probation (admitted to probation with a split sentence from prison), Monitor for the Court, and Not Guilty by Reason of Insanity (NGRI).

Parole: Includes Parole, Department of Juvenile Justice (DJJ), early release program, and Community Supervision Program cases.

YOA: Includes offenders sentences under the Youth Offender Act.

Table 2-A presents information on total admissions by type of offense, violent versus non-violent. Violent refers to those offenses as defined by the Omnibus Crime Act¹. Total admissions during the fiscal year were predominately non-violent with only 8% admissions for violent offenses. This figure is up one percentage point from last year.

Table 3-A and Figure 1 illustrate total admissions by gender and race. Admissions overall continue to be predominately male at 81%, with a racial composition of 53% black, 46% white, and 2% of other races.

¹Abuse or Neglect of a Vulnerable Adult, Arson, 1st & 2nd degree, Assault and Battery of a High & Aggravated Nature (offense on or after 06/02/2010), Assault and Battery with Intent to Kill, Assault with Intent to Commit Criminal Sexual Conduct 1st or 2nd degree, Attempted Murder, Burglary 1st and 2nd degree, Carjacking, Child Abuse, Criminal Domestic Violence of a High and Aggravated Nature, Criminal Sexual Conduct 1st or 2nd degree, Criminal Sexual Conduct with a Minor (or Attempted) 1st or 2nd degree, Criminal Sexual Conduct with a Minor 3rd degree-Commit/Attempt Lewd Act (victim under 16 years and actor over 14 years) Drugs - Manufacture, Distribution or Etc. of Methamphetamine 1st, 2nd, 3rd, or Subsequent Offenses, Drug Trafficking (44-53-0370, 44-53-0375), Engaging a Child for Sexual Performance, Homicide by Child Abuse (or Aiding or Abetting), Kidnapping, Murder, Robbery (Armed, Attempted Armed), Taking of Hostages by an Inmate, Voluntary Manslaughter, or Accessory Before the Fact to any of the above crimes.

Table 4-A and Figure 2 describe all active offenders by level of supervision on June 30, 2012. This total does not include indirect supervision offenders, such as those incarcerated on split sentences. The level of supervision determines how often the offender is seen by the Agent. Among all offenders, high level supervision represented 18% and standard supervision represented 76%. Sex offender supervision and intensive supervision each represented 3% of all active offenders.

Table 5-A shows total closures by type (successful or unsuccessful). Closures include only those offenders in which all cases have completely closed out from SCDPPPS. Only the last order to close during FY 2012 and within that order only the main case, even though an offender may have had more than one case, is included. The overall success rate for all offenders closing during FY 2012 was 71%, an increase of 4% from last fiscal year. The unsuccessful rate, 29%, is defined as those offenders whose supervision was revoked due to a technical violation or new offense and those instances when the offender was sentenced to prison on a new offense.

Table 6-A describes offender admissions by age category.

Note: Percentages may not add to 100% due to rounding.

SECTION B

PROBATION

FISCAL YEAR 2012

PROBATION

The Department is charged with the responsibility of supervising those offenders placed on probation by the Court. Probation is a court-ordered community sanction which suspends the imposition of all or part of the original sentence of incarceration. It requires the offender, under SCDPPPS supervision in the community, to adhere to a set of conditions which limit the offender's freedom, reparation to victims if so ordered, and to provide for judicial revocation for violation of those conditions.

Tables 1-B and 2-B represent all probation admissions during FY 2012. Probation includes Probation, PTUP (Probation Terminated Upon Payment), Split Probation admitted to probation with a split sentence from prison, Monitor for the Court, and NGRI (Not Guilt by Reason of Insanity).

Table 1-B shows probation admissions in terms of offense type, violent or non-violent. For FY 2012, 4% of all probation admissions were for violent offenses.

Table 2-B provides information on probation admissions by gender and race. Probation admissions were predominately male, at 78%, with a racial composition of 50% black, 2% other, and 48% white.

Table 3-B and Figure 3 describe the active probation offender population in terms of level of supervision on June 30, 2012. These figures do not include indirect supervision offenders, such as those incarcerated on split sentences, Absconders, offenders transferred out of state and others who are not under the day-to-day supervision of the Department. Among probationers, those on high level supervision represented 19% of the population, standard supervision represented 78%, intensive supervision at 1% followed by sex offender supervision representing 2% of probationers.

Table 4-B provides data for probation closures by type (successful or unsuccessful). The overall success rate for probationers was 70%, slightly lower than the total offender population success rate of 71%.

Table 5-B reflects probation admissions by age category.

SECTION C

PAROLE

FISCAL YEAR 2012

PAROLE

The Department is charged with the responsibility of supervising those offenders paroled by the South Carolina Board of Pardons and Paroles. Parole is the conditional release of an individual from imprisonment, but not from the legal custody of the state, to complete his/her sentence outside a correctional institution under conditions and provisions of supervision determined by the Board. Should an individual be granted parole, he/she must agree to abide by certain conditions of community supervision. The violation of any of these conditions is sufficient grounds for revocation of parole by the Board, and the imposition of the remainder of the original sentence of incarceration. The parole category also includes DJJ early release and Community Supervision Program offenders

Table 1-C shows parole admissions by type of offense. A larger percent of parole admissions, 48%, fall into the violent category, as compared to 4% for probation admissions (see Table 1-B) and 2% for YOA (see Table 1-D) admissions.

Table 2-C describes all parole admissions by gender and race. Parole admissions consisted primarily of males, 92%, with a racial composition of 65% black, 2% other, and 33% white.

Table 3-C and Figure 4 describe active parolees by level of supervision on June 30, 2012. These figures do not include indirect supervision offenders, such absconders, offenders transferred out of state and others who are not under the day-to-day supervision of the Department. Among parolees, standard supervision offenders represented 65% of the parolee population, followed by high level at 14%. Intensive supervision accounted for 13% of the parolee population and sex offender supervision was 7%.

Table 4-C presents parole case closures by type (successful or unsuccessful). The overall success rate for parolees (91%) was higher than that of probationers (70%, See Table 4-B).

Table 5-C describes the parole population by age category.

SECTION D

**YOUTHFUL
OFFENDERS**

FISCAL YEAR 2012

YOUTHFUL OFFENDER RELEASE

Inmates ages 17 through 24, sentenced under the South Carolina Youthful Offender Act (YOA) to an indeterminate period of incarceration, not to exceed six years, within the South Carolina Department of Corrections (SCDC), may be conditionally released prior to that time, based on offense category, adjustment, and evaluation while incarcerated.

Table 1-D displays YOA admissions by type of offense. YOA violent admissions of 2% is less than for those admitted to probation at 4% (See Table 1-B).

Table 2-D illustrates YOA admissions by gender and race. Admissions were predominately male (96%) and black (71%).

Table 3-D and Figure 5 describe the active population for YOA conditional release offenders in terms of level of supervision on June 30, 2012. Fifteen percent (15%) were supervised at a high level. Intensive level supervision accounted for 16%, while 68% were supervised at standard level and 1% at the sex offender level.

Table 4-D shows YOA offenders are more inclined to close unsuccessfully (44%) than the parole population (9%, see Table 4-C) or the probation population (30%, See Table 4-B).

Table 5-D describes YOA admissions by age category.

SECTION E

SEX OFFENDERS

FISCAL YEAR 2012

SEX OFFENDERS

The Department is responsible for supervising those offenders sentenced to community supervision by the Court of General Sessions or released from incarceration on other supervision programs who have been convicted of sex offenses.

In Table 1-E and Figure 6, those offenders who have been convicted of a sex offense are shown. SCDPPPS utilizes the Sex Offender Management Program to supervise those sex offenders who are currently serving an active sentence for a sex offense. For those offenders currently under supervision for an offense that is not a sex offense but who are required to register as a sex offender for a previous offense, SCDPPPS provides general supervision according to the offender's risk assessment score.

There are three levels of sex offender supervision: SO-Containment, SO-Intensive, and SO-High. A male sex offender's level of supervision is determined by his score on the Static-99 risk assessment. Female sex offenders are supervised at the SO-High level of supervision for the duration of their supervision period.

SEX OFFENDER CONTACT STANDARDS

SECTION F

VIOLATIONS

FISCAL YEAR 2012

VIOLATIONS

Offenders charged by their supervising Agents with violations of the conditions of supervision are reviewed through an administrative hearing process to determine if probable cause of a violation exists. If a violation is found, a determination is made as to which community sanctions should be imposed, or whether the case should be referred to the Board or the Court for revocation action.

Table 1-F provides data by county on the violation process. Statewide, a total of 3,645 violation hearings were held. At those hearings, 2,391 cases were continued or recommended for continuation, while 1,254 cases were revoked or recommended for revocation.

Table 2-F provides a comparison of changes in active population and the types of closure for FY 2008 to FY 2012.

SECTION G

**ELECTRONIC
SURVEILLANCE**

FISCAL YEAR 2012

ELECTRONIC SURVEILLANCE

The Department utilizes electronic surveillance to monitor certain offenders. Home detention is a special condition of intensive supervision. Offenders are confined to their residences except for those times authorized by the Court, Parole Board or supervising probation/parole Agent. Electronic Monitoring (EM) is the enhanced surveillance technique used in conjunction with home detention to ensure heightened supervision and accountability for those offenders on intensive supervision status. It is used to verify the degree of the offender's compliance with the conditions of Home Detention. At the end of FY 2012, 171 offenders were on EM.

On June 8, 2006, Jessie's Law, a bill aimed at protecting our state's children through tougher penalties for sex predators was signed into law with an effective date of July 1, 2006. Named after Jessica Marie Lunsford -- who was murdered in 2005 by a registered sex offender in Florida -- the law imposes a mandatory minimum of 25 years in prison for sex predators and mandates Global Positioning Satellite (GPS) monitoring for sex offenders convicted of certain offenses. GPS can pinpoint within 15 meters a person's position on Earth using 24 satellites in orbit at 11,000 nautical miles above the Earth. The satellites are owned and operated by the Department of Defense and continuously transmit signals which can be detected by anyone possessing a GPS receiver. Figure 7 shows the number of offenders on EM and Figure 8 shows the GPS population each month of the fiscal year.

SECTION H

SUMMARY

FISCAL YEAR 2012

SUMMARY

Table 1-H shows offender referrals during the fiscal year.

Abbreviations:

AA/NA	ALCOHOLICS ANONOMOUS/NARCOTICS ANONOMOUS
DNA	DEOXYRIBONUCLEIC ACID BLOOD TESTING
DRGTST	DRUG TESTING
DSS	SC DEPARTMENT OF SOCIAL SERVICES
DVC	DOMESTIC VIOLENCE COUSELING
ED	HIGH SCHOOL EQUIVALENCY PROGRAMS
ESC	EMPLOYMENT SECURITY COMMISSION (WORKFORCE DEVELOPMENT)
MH	METAL HEALTH COUNSELING/TREATMENT
PEP	PAROLE EMPLOYMENT PROGRAM
PSE	PUBLIC SERVICE EMPLOYMENT
RE EN	RENTY INITIATIVES
SAC	SUBSTANCE ABUSE COUNSELING
SOC	SEX OFFENDER COUNSELING/TREATMENT
SPICE	SELF-PACED IN CLASS EDUCATION
VR	SC DEPARTMENT OF VOCATIONAL REHABILITATION

Table 2-H shows DNA collections by county and Figure 9 illustrates monthly collections.

Table 3-H shows drug testing activity during FY 2012. This table represents the number of individual offenders tested, the number of individuals testing positive, the total number of positive tests and the number of times offenders were tested.

Table 4-H summarizes the population characteristics of SCDPPPS offenders by supervision programs as well as offender involvement in drug testing.

The proportion of violent offenses among YOA admissions (2%) and probationers (4%) remained the same when comparing FY 2011 and FY 2012. The percentage of violent offenses among parole admissions increased by 5% over the previous year.

Overall, the most utilized level of supervision was standard (78%), followed by high (19%), intensive (1%) and sex offender (2%) for all cases.

The overall success rate for closures was 71% during the fiscal year. The overall success rate for parolees was 91%. Both probationers (70%) and YOA offenders (56%) had less successful closures rates than parolees, but each showed an increase in successful closures over the previous fiscal year.

Of the 19,052 offenders tested for drug use while under supervision, 8,293 or 43.5%, tested positive for drugs.

Figure 10 compares the number of admissions for each fiscal year from 1993 to 2012. Admissions increased for FY 2012 by 4.7% from the previous fiscal year.

Figure 11 displays the percentage of violent admissions by program for fiscal years 2003 to 2012.
